THE SIOUX WAR.

LETTER OF GEN. POPE TO GOV. RAMSEY.
HEAD QUARTERS, DEPT. NORTHWEST,
Saint Paul, Minnesota, Nov 6, '62.

MY DEAR SIR:—Your letter of this date is received, and in accordance with your wishes and those of many of the respectable citizens of our State, I have countermanded the order for the 6th and 7th Minnesota regiments to go South, and shall send the 3d regiment instead.

It is perhaps true, as you state, that the departure of these regiments would alarm the frontier settlers, and perhaps prevent many of them returning to their abandoned homes; but I think that much of this alarm would result from a misapprehension of my purposes. I never, for a moment thought of abandoning any posts heretofore occupied, during this winter at least.

Fort Ridgely and points on the river below would have been, and will be occupied, as also the line of frontier posts from Sank Center as far south as the Iowa line, with advanced posts at Madelia, Chain Lakes and in Jackson County.

The force I had designed to keep in this State, consisted of the 8th, 9th, and 10th Regiments (Infantry) and the 3d Regiment (mounted) and the Cavalry Regiment authorized to be raised in this State, six companies of which are already prepared for service. This would have given an effective force of 4,760. In Iowa I am keeping one Infantry Regiment and one Cavalry Regiment, numbering 2,200 men. With this force of 7,000 men, of whom nearly one half would be mounted, I propose to make a vigorous campaign in the spring, which should cover the whole region between the Missouri River and the eastern boundary of Minnesota.

I am induced to retain the 6th and 7th Regiments as you request, not because of actual danger to the settlements, but as you suggest, and as I have myself thought necessary, to restore confidence to a people panic-stricken at the awful outrages but recently perpetrated by the Sioux. I can well understand how people should be timid after such an experience, and how impossible to induce the inhabitants to remain on their farms and in their villages without a sense of ample security. It is to be hoped that the assurance given by this military force will not be needed, as the Government need troops in the South very much, and I am very anxious to meet its wants as far as possible.

As the hearty concurrence and co-operation of the people of the State in the measure which I propose, and which the Government has now under consideration, is essential to success; and as my purposes seem to have been greatly misunderstood and in some cases misrepresented, I think it proper again to state to you the policy and the plans which will guide my operations here.

I propose to the Government to disarm and remove entirely from the State all the amatory Indians, and all other Indians now within its boundaries; to place them where they can no longer impede the progress of the settlements nor endanger the settlers; during the campaign of the next summer to seize and dispose of all the Indians upon whom we can lay our hands in like manner, so that the lines of travel and emigration shall be secure to the smallest parties. To treat all Indians, as the late outrages and many previous outrages have demonstrated to be the only safe and humane method, as irresponsible persons, to occupy nearly the same relation to government as lunatics do to the State authorities; the Government to feed and clothe them cheaply, and for that purpose to use the annuities now paid them, and the proceeds of the sale of their reservations; to pay no more annuities, and give the Indians no more arms or weapons by which they can

be deprived of his arms, and of the power of indulging his habits of wandering restlessness, and removed from the association of gamblers, whiskey sellers, and unprincipled white men and half-breeds, will be brought to a condition where Christianity and Education can be best brought to bear upon him and where some hope of success will be offered to the missionary and instructor in their humane labors.

Whatever effect might be on the present generations of Indians, there is great reason to hope that the succeeding generation will be so far brought under the influence of education and civilization that the Indian can safely be trusted among the whites.

In a humane view both to whites and Indians, and in a view of the continued progress and prosperity of the State, this policy seems to me to be wise and conclusive of the whole question, and I shall spare no means to have it adopted by the Government and carried out.

The Sioux prisoners engaged in the late outbreaks will be executed unless the President forbids it, which, from the tone of his dispatches, I am sure he will not do.

Very respectfully, Governor,
Your Obedient Servant,
JOHN POPE,
Major General Commanding,
Gov. A. RAMSEY, Minnesota.

BOY SHOT BY INDIANS.

On Saturday last, a young man named Laird, about nineteen years of age, living several miles beyond Madelia, was shot by an Indian, dressed in the guise of a white man. The young man was at work fencing a hay stack, and his father was some distance from him, plowing. He noticed several persons approaching, but supposing they were white men, paid no attention to them until he was fired at and shot. The ball entered his thigh, above the knee, striking the bone and glancing off. He was rendered insensible for a few seconds, but recovering, he seized his gun, a Sharp's rifle, and fired, then crawled to his father, who immediately gave the alarm.

The Indians approached from the direction of the Winnebago Agency, and in escaping, pursued a westerly course. They walked single file, wore moccasins and in walking, their toes turned in. Capt. Marsh, stationed at Madelia, tracked the parties some distance, and from all the information he has been able to gather, is firmly convinced that they were Indians.

The young man's wound was dressed by Dr. McMahan, of this place, who considers the injury painful, though not dangerous.

ORDERED SOUTH.
We are very sorry to announce the fact that the 25th Wisconsin regiment, has been ordered south. Preparations are now making to concentrate the regiment at Winona or La Crosse, and in a few weeks we shall be called upon to bid our Wisconsin friends "good bye." The gentlemanly conduct of that portion of the regiment stationed in this vicinity has won the confidence and respect of our citizens; and we regret exceedingly the necessity that compels them to leave.

Col. Montgomery, who has commanded this department since the resignation of Col. Flandern, is universally esteemed by our people, for his many excellent traits, and for the ability with which he has performed his duties. We predict for the Colonel a brilliant career, and are confident that if an opportunity is afforded him, he will speedily exchange "the eagles" for the "stars."

ARRIVAL OF GEN. SIBLEY.
On Monday last, about noon, General Sibley's command, escorting the In-

dians, accompanied by the staff officers of those regiments, are also here.

On Gen. Sibley's staff we recognize the familiar faces of Majors Brown and Forbes, both of whom rendered valuable services and contributed materially to the success of the expedition.

The Sioux prisoners number about 370, and a more villainous looking set of cut-throats we never before laid eyes on. They are chained in pairs, and huddled together in two large sheds erected for that purpose. One old fellow with a split nose was pointed out to us as the murderer of several small children, found in a wagon, and hunched, one after the other, in cold blood. Two among the number were formerly connected with the Winnebago tribe, and received annuities as members thereof. One is the son of the old chief Prophet, whose services in the Black Hawk war were recognized and rewarded by the Government. The others married to a Winnebago squaw, and lived with that tribe for a number of years.

The negro, whom it is alleged killed twenty-three white persons, was the greatest attraction with visitors. He appears sullen and downcast, and on the whole presents a very repulsive appearance. He is a molatto, rather dark, and was born at Mendota, in this State. Principally upon his testimony, most of the guilty have been convicted; and we are told that his statements, implicating over three hundred, have not been in the slightest particular, refuted or contradicted by the testimony of any other witness or by confessions of the prisoner themselves. His memory is truly wonderful, and he has testified against the Indians in the hope of securing a commutation of his punishment to imprisonment for life.

Young Prophet says that fifteen Winnebagoes were in the fight at New Ulm, and that all the Winnebago prisoners excepting Yellow Banks, are guilty.

A gentleman from Fairbault, informs us that he recognized twelve or fifteen Sioux belonging to what is familiarly known as the "Fairbault band," generally wintering in that vicinity, and dependent in a great measure upon the charities of its people for the means of sustaining life.

Mr. Ireland, who received eight bullet wounds at the Lake Shetek massacre, recognized among the number one of the Indians who shot him. The red devil turned pale, trembled, and could not look Mr. I. in the eyes.

Another gentleman told an Indian that he would have to hang. The Indian replied that he did not care, and that he had a brother on the Missouri river with a stout heart, who would avenge his death in the spring.

DEATH OF A SOLDIER.
A private of the Sixth regiment, died in the hospital at this place on Monday night, and was buried next day, with military honors.

THE TRAIN ATTACKED AT NEW ULM.
Before reaching New-Ulm Gen. Sibley was notified of the exaggerated state of public opinion in that place, and that his prisoners would probably be attacked in passing through the town. He therefore avoided the place as far as possible, but the infuriated populace—men, women and children—anticipated his object, and made preparations accordingly. Large piles of stones were collected along the road, and as the train came up, the people "attacked the In-

THE SIOUX WAR.

LETTER OF GEN. POPE TO GOV. RAMSEY.
HEAD QUARTERS, DEPT. NORTHWEST,
Saint Paul, Minnesota, Nov. 6, '62.
MY DEAR SIR:—Your letter of this
date is received, and in accordance with
with your wishes and those of many of
the respectable citizens of our State, I
have countermanded the order for the
6th and 7th Minnesota regiments to go
South, and shall send the 3d regiment
instead.

It is perhaps true, as you state, that
the departure of these regiments would
alarm the frontier settlers, and perhaps
prevent many of them returning to their
abandoned homes; but I think that much
of this alarm would result from a mis-
apprehension of my purposes. I never,
for a moment thought of abandoning any
posts heretofore occupied, during this
winter at least.

Fort Ridgely and points on the river
below would have been, and will be occu-
ped, as also the line of frontier posts
from Sank Center as far south as the
Iowa line, with advanced posts at
Madelia, Chain Lakes and in Jackson
County.

The force I had designed to keep in
this State, consisted of the 8th, 9th,
and 10th Regiments (Infantry) and the
3d Regiment (mounted) and the Cavalry
Regiment authorized to be raised in this
State, six companies of which are al-
ready prepared for service. This would
have given an effective force of 4,760.
In Iowa I am keeping one Infantry
Regiment and one Cavalry Regiment,
numbering 2,200 men. With this force
of 7,000 men, of whom nearly one half
would be mounted, I propose to make
a vigorous campaign in the spring,
which should cover the whole region
between the Missouri River and the
eastern boundary of Minnesota.

I am induced to retain the 6th and
7th Regiments as you request, not
because of actual danger to the settle-
ments, but as you suggest, and as I
have myself thought necessary, to re-
store confidence to a people panic-
stricken at the awful outrages but recent-
ly perpetrated by the Sioux. I can
well understand how people should be
timid after such an experience, and how
impossible to induce the inhabitants to re-
main on their farms and in their villages
without a sense of ample security. It is
to be hoped that the assurance given by
this military force will not be needed, as
the Government need troops in the South
very much, and I am very anxious to
meet its wants as far as possible.

As the hearty concurrence and co-
operation of the people of the State in
the measure which I propose, and which
the Government has now under consid-
eration, is essential to success; and as
my purposes seem to have been greatly
misunderstood and in some cases mis-
represented, I think it proper again to
state to you the policy and the plans
which will guide my operations here.

I proposed to the Government to dis-
arm and remove entirely from the State
all the amatory Indians, and all other
Indians now within its boundaries; to
place them where they can no longer
impede the progress of the settlements
nor endanger the settlers; during the
campaign of the next summer to seize
and dispose of all the Indians upon
whom we can lay our hands in like
manner, so that the lines of travel and
emigration shall be secure to the small-
est parties. To treat all Indians, as the
late outrages and many previous outrages
have demonstrated to be the only
safe and humane method, as irrespon-
sible persons, to occupy nearly the same
relation to government as fugitives do to
the State authorities; the Government to
feed and clothe them cheaply, and for
that purpose to use the annuities now
paid them, and the proceeds of the sale
of their reservations; to pay no more
annuities, and give the Indians no more
arms or weapons by which he can be
dangerous.

By this mode of treatment, a great
barrier, which has been constantly ac-
cumulating by the removal, periodically,
of Indian tribes, and their locustion along
our borders, will be at once lifted away,
and the whole region to the Rocky
Mountains will in a very short time be
opened to emigration, travel and settle-
ments. By this policy, also, the Indian

being deprived of his arms, and of the
power of indulging his habits of wan-
dering restlessness, and removed from
the association of gamblers, whiskey
sellers, and unprincipled white men and
half-breeds, will be brought to a con-
dition where Christianity and Education
can be best brought to bear upon him
and where some hope of success will be
offered to the missionary and instructor
in their humane labors.

Whatever the effect might be on the
present generations of Indians, there is
great reason to hope that the succeeding
generation will be so far brought under
the influence of education and civilization
that the Indian can safely be treated
among the whites.

In a humane view both to whites and
Indians, and in a view of the continued
progress and prosperity of the State,
this policy seems to me to be wise and
conclusive of the whole question, and I
shall spare no means to have it adopted
by the Government and carried out.

The Sioux prisoners engaged in the
late outbreaks will be executed unless the
President forbids it, which, from the tone
of his dispatches, I am sure he will not
do.

Very respectfully, Governor,
Your Obedient Servant,
JOHN POPE,
Major General Commanding,
Gov. A. RAMSEY, Minnesota.

BOY SHOT BY INDIANS.

On Saturday last, a young man
named Laird, about nineteen years of age,
living several miles beyond Madelia,
was shot by an Indian, dressed in the
guise of a white man. The young man
was at work fencing a hay stack, and
his father was some distance from him,
plowing. He noticed several persons
approaching, but supposing they were
white men, paid no attention to them
until he was fired at and shot. The ball
entered his thigh, above the knee, strik-
ing the bone and glancing off. He was
rendered insensible for a few seconds,
but recovering, he seized his gun, a
Sharp's rifle, and fired, then crawled
to his father, who immediately gave the
alarm.

The Indians approached from the di-
rection of the Winnebago Agency, and
in escaping, pursued a westerly course.
They walked single file, wore moccasins
and in walking, their toes turned in.
Capt. Marsh, stationed at Madelia,
tracked the parties some distance, and
from all the information he has been
able to gather, is firmly convinced that
they were Indians.

The young man's wound was dressed
by Dr. McMahan, of this place, who
considers the injury painful, though not
dangerous.

ORDERED SOUTH.
We are very sorry to announce the
fact that the 25th Wisconsin regiment,
has been ordered south. Preparations
are now making to concentrate the regi-
ment at Winona or La Crosse, and in
a few weeks we shall be called upon to
bid our Wisconsin friends "good bye."
The gentlemanly conduct of that por-
tion of the regiment stationed in this vi-
cinity has won the confidence and re-
spect of our citizens; and we regret ex-
ceedingly the necessity that compels
them to leave.

Col. Montgomery, who has command-
ed this department since the resignation
of Col. Flandreau, is universally esteem-
ed by our people, for his many excel-
lent traits, and for the ability with which
he has performed his duties. We pre-
dict for the Colonel a brilliant career,
and are confident that if an opportunity
is afforded him, he will speedily ex-
change "the eagles" for the "stars."

ARRIVAL OF GEN. SIBLEY.

On Monday last, about noon, General
Sibley's command, escorting the Indi-
an prisoners, arrived here, and located
their camp on the large flat, near the
Blue Earth—a beautiful, well-sheltered
camping ground, and which has since
been named camp Lincoln.

The forces under Gen. Sibley embrace
about seventeen hundred men, mostly
infantry. Col. Crooks of the Sixth,
and Col. Miller, of the Seventh, accom-

panied by the staff officers of these regiments
of cut-throats we never before laid
eyes on. They are chained in pairs,
and huddled together in two large
sheds, erected for that purpose. One
old fellow with a split nose was point-
ed out to us as the murderer of several
small children, found in a wagon, and
brutched, one after the other, in col-
blood. Two among the number were
formerly connected with the Winnebago
tribe, and received annuities as mem-
ber thereof. One is the son of the old chief
Prophet, whose services in the Black
Hawk war were recognized and reward-
ed by the Government. The others in-
married to a Winnebago squaw, and
lived with that tribe for a number of
years.

The negro, whom it is alleged killed
twenty-three white persons, was the
greatest attraction with visitors. He
appears sullen and downcast, and on
the whole presents a very repulsive ap-
pearance. He is a molatto, rather dark,
and was born at Mendota, in this State.
Principally upon his testimony, most of
the guilty have been convicted; and we
are told that his statements, implicating
over three hundred, have not been in
the slightest particular, refuted or con-
tradicted by the testimony of any other
witness or by confessions of the prisoner
themselves. His memory is truly won-
derful, and he has testified against the
Indians in the hope of securing a com-
mutation of his punishment to impris-
onment for life.

Young Prophet says that fifteen Win-
nabagoes were in the fight at New-Ulm,
and that all the Winnebago prisoner-
excepting Yellow Banks, are guilty.
A gentleman from Faribault, inform-
ing that he recognized twelve or fifteen
Sioux belonging to what is familiarly
known as the "Faribault band," gener-
ally wintering in that vicinity, and de-
pendent in a great measure upon the
charities of its people for the means of
sustaining life.

Mr. Ireland, who received eight bulle-
t wounds at the Lake Shetek massacre,
recognized among the number one of the
Indians who shot him. The red devil
turned pale, trembled, and could not
look Mr. I. in the eyes.

Another gentleman told an Indian
that he would have to harg. The In-
dian replied that he did not care, and
that he had a brother on the Missouri
river with a stout heart, who would
avenge his death in the spring.

DEATH OF A SOLDIER.
A private of the Sixth regiment, died
in the hospital at this place on Monday
night, and was buried next day, with
military honors.

THE TRAIN ATTACKED AT NEW ULM.
Before reaching New-Ulm Gen. Sibley
was notified of the exasperated state
of public opinion in that place, and that
his prisoners would probably be attack-
ed in passing through the town. He
therefore avoided the place as far as
possible, but the infuriated populace—
men, women and children—anticipating
his object, and made preparations accord-
ingly. Large piles of stones were col-
lected along the road, and as the train
came up, the people attacked the Indi-
ans with clubs, knives, stones and
guns. The skull of one was badly frac-
tured; another received a severe blow
on the hand, while a number of others
were slightly injured. Fortunately no
shots were fired, and in this regard,
the mob showed great discretion. The
troops endeavored to quell the mob, and
protect the prisoners. A number of

the rioters were arrested, but subsequently released.

While we sympathize with the people of New-Ulm in their sufferings, we cannot but condemn as unjustifiable their conduct in thus attacking prisoners, strongly ironed and guarded, and all under sentence to atone with their lives for their misdeeds.

THE WINNEBAGO PRISONERS.

On Tuesday, by order of Gen. Sibley, the Winnebago prisoners were removed to Camp Lincoln; and on Wednesday their trials commenced.

In Little Priest's case, we understand it was proved that he was present at the massacre at the Upper Agency, and that after a Sioux had shot Mr. Andrew Myrick, Little Priest rushed up and stabbed him with a knife. Also that Little Priest was in the party that fired on Capt. Marsh and his force while crossing at the ferry.

Maz-nop-ki, the Winnebago, arrested a few weeks ago by Capt. Edgerton, claimed to have been at Big Stone Lake at the time of the massacre, and said he had taken no part in the battles against the whites. It was proved by a Sioux that this pretended "good Indian" was in the fight at Wood Lake, and rode on the same horse with the whites.

We have not learned the nature of the evidence against the other parties, or the fate that was meted out to them.—We believe that their very presence at the massacres is sufficient cause to hang them.

An unusual effort was made by Indian officials and sympathisers to save their necks, but we hope they will not succeed. We understand that Balcomb, asked Gen. Sibley if he could not be permitted to introduce attorneys to plead the cause of the Indians, but the General very respectfully but firmly replied that these were "military trials," intimating that the request would not be complied with.

SIoux SQUADS CAPTURED.

We learn that a detachment of Capt. Dane's company, on Wednesday, captured two Sioux squads on the opposite side of the river. They stated that they were from Big Stone Lake, where their "bucks" had been killed by white men. They are at Camp Lincoln.

DISPOSITION OF TROOPS.

Gen. Sibley has been engaged during the past few days, in distributing the troops under his command, among the frontier points.

Cos. A, B, G, H and K, Sixth Regiment Fort Snelling.

Company C and F, 6th, Glencoe; Company D, 6th, Forest City; Company E, 6th, Hut-hin-on; Company I, 6th, Faxon Landing.

We understand that at least two companies of the Seventh regiment, under Col. Miller, will be stationed at Mankato, which will continue to be headquarters. Capt. Burk's company, of Le Sueur County, is named as one of the companies for this place.

We suppose that the remaining companies of the Seventh, now here, will be distributed throughout this vicinity.

In this connection, we beg leave to suggest to the proper authorities, the importance of stationing a company at Butternut Valley, one of the most exposed and defenceless points on the frontier. The citizens there will give their church and school house, two comfortable buildings, for quarters. All the murders by the Sioux, in this county, have been committed in that town; and unless a small force is stationed there, or arms furnished the settlers, of which they are now destitute, they will be compelled to abandon their homes.

THE PRISONERS' USES.

One day this week, some ill-considered visitor said in the prison, in the hearing of the Indians, that they were to be hanged on the following day. The report rapidly spread among the prisoners, and they all expressed their

precautionary measures were taken to suppress instantly any demonstration on their part. Fortunately for the Indians, no attempt was made.

GEN. SIBLEY.

Since his arrival here, Gen. Sibley has been almost constantly engaged in the discharge of his duties, and his tent has been constantly crowded with visitors. He paid a brief visit to our town, with his staff, on Wednesday. He sleeps and eats in his tent, and shares the privations of camp with his men.

COLONEL MARSHALL.

The above officer's bravery at the battle of Wood Lake has not been overlooked by the music. The boys of Company B have transformed his gallant exploits on that occasion into rhyme, which is just now quite popular in camp. The following is a correct version of the poetical effusion, which may not be uninteresting to the Colonel's many friends in this State:

THE HERO OF WOOD LAKE.

Composed by William P. Rogers, and Sung by Company B, Minnesota Seventh Regiment.

Who would not be a soldier
And for his country die?
I would not see my country fall—
No, not a bit, not I.
But boldly take my rifle
And to the battle-field,
And fight those bloody tyrants,
Till they will gladly yield.

And then when we have conquered
And to our homes return,
To meet our wives and sweet-hearts
With glowing hearts will burn!
May clasp us in their arms,
And with joyful hearts may cry,
Who would not be a soldier,
And for his country die?

Then to increase our trouble,
The red snakes have begun
Their hellish works on the frontier,
To rob us of our homes.
Our sisters, wives and mothers
A prey to them have fell,
There could not be worse demons
Inside the ports of hell.

There's many a fond mother
Has perished with her child,
By the hands of those red savages,
Which none can now deny;
And many a fond sister
By them has been defiled,
And led away as captives
Into a forest wild.

But soon our brave heroes,
They gathered from afar,
United as if brothers,
And set out for Lac qui parle;
And now that we have rescued
Those fair ones from their fate,
Here's health to Col. Marshall,
The hero of Wood Lake.

Those bloody savages, they thought
That they had got us fast,
But horror! what a sad mistake,
As they found out at last.
As soon as Colonel Marshall
L to the field did go,
In two hours and twenty minutes
He did subdue the foe.

Go tell your loving children,
So after you are gone
That they may know by whom
The battle of Wood Lake was won;
That they may know who it was
That saved them from their fate:
It was brave Colonel Marshall,
At the battle of Wood Lake.

THE INDIAN PRISONERS.

A great deal of indignation has been caused throughout Minnesota, by the announcement that the Government at Washington is making an effort to secure a permanent peace with the Sioux, without hanging the prisoners now held by Gen. Sibley. In some towns indignation meetings have been held, and in a few instances organizations have been effected for the purpose of rescuing the prisoners from the military authorities, and visiting summary punishment upon them. Our people have been shamefully wronged and outraged by these savage devils, and nothing but their deaths will atone for the lives of our murdered citizens. They have been fairly and impartially tried and condemned, and the people of Minnesota demand that they shall suffer death.

Washington to prevent this result, and we believe their efforts have been at least partially successful; and that the telegraphic announcement above referred to, has been sent here to test the temper of our people and see whether such an outrage can be perpetrated with impunity. If they think it will be tamely submitted to, they much mistake the temper of the people; and an attempt to carry it into effect will so infuriate the citizens of Minnesota, that they will arise as one man and drive every Indian, agent and trader from our borders: The people have been trifled with too long already, and we beseech the officials at Washington, if they would save our State from the disgrace of an open revolt and resistance to the military authorities, that they allow the law to take its course, and full justice be meted out to the savage murderers of our neighbors and friends.

THE RINGLEADERS TO BE HUNG.

A telegraphic despatch in the Winona Republican, of the 12th, says that the President has replied to Gen. Pope to hang only the ringleaders in the Sioux massacre, and requiring a copy of the evidence upon which they were convicted. We are at a loss to understand who the President refers to as "ringleaders" unless he means Little Crow and a few other chiefs, and if so, we would remind him that those personages must be caught before they can be hung.

From the above we infer that few, if any of the Indians now held by Gen. Sibley will be hung with the sanction of the Government. Few of them were "ringleaders" but all were actual participants in the murders. The massacre was premeditated and simultaneous by the whole Sioux tribe; and it must indeed be a nice discrimination that can distinguish the "ringleaders" from the followers. All are alike murderers, and no punishment short of hanging will satisfy the citizens of Minnesota. If the Government will not execute them, the people must; and woe to the men or set of men who interpose between the people and the savage murderers.

JUDGE USHER.—This distinguished functionary paid a visit to the Winnebago Agency last week. He remained several days, during which time he held several councils with the Indians, and treated them to a grand beef feast, killing four or five cattle for the occasion. On Saturday he passed through our town, stopping long enough to get his dinner. While here he was closely guarded, and no opportunity was afforded our citizens to converse with him or ever represent their views relative to the disposition to be made of the Indians. We agree with a speaker at the late public meeting at this place that "it is about time that public officers should associate and consult with white men, and not Winnebago Indian," when they are commissioned to look after the public welfare."

On Tuesday evening last a very pleasant social party came off at the Mankato House, and another at Masonic Hall, on Thursday evening. Gen. Sibley, Col. Crooks, Lieut. Col. Averill, and other distinguished personages, attended the former and participated in the dance.

Another general order has been issued by direction of Gov. Ramsey, extending the time for drafting in the few counties which are delinquent in furnishing their quotas, to the 20th inst.—It is stated that but four counties are now behind, viz: Winona, Fillmore, Houston and Sibley. The deficit to be made up in these counties is 160, which if not sooner supplied by voluntary enlistment, will be drafted on the 20th inst., from the counties named; provided Gov. Ramsey does not again determine to "postpone." There will be no draft to fill the old regiments, and the men now required to complete our quota will probably be assigned to the regiment of Mounted Rangers now being

REMOVAL OF TROOPS.

PUBLIC MEETING IN MANKATO.

At a large meeting of the citizens of Mankato, Blue Earth county, Minnesota, held Monday evening Nov. 3d, 1862, the following resolutions were adopted:

WHEREAS, Our State has been ruthlessly invaded by a horde of Indian savages, located upon our borders, who have with more than fiendish cruelty, brutally murdered hundreds of our citizens, torturing and maiming them ere death ended their sufferings, and driven thousands of others from their homes and property:

AND WHEREAS, The savage foe has only been stayed, (and not conquered,) in their infernal cruelties, and are yet roaming upon our frontier, in large numbers, blood-thirsty, barbarous, and unslugged, writing only the favorable opportunity when death and devastation will again be heaped upon us;

AND WHEREAS, The Winnebago Indians are located within our county, whom we have good reason to believe would have joined in the general Indian massacre had it not been for the vigilance and bravery of our frontier citizens generally, and the soldiers sent for our protection, who drove back the infernal savages west of us;

AND WHEREAS, We are informed that two regiments of Minnesota troops and several other regiments, sent here for our protection, have been ordered to leave the State.

THEREFORE RESOLVED, That we earnestly demand the continuance of the troops now here until peace and safety are restored to our frontier, and every Indian driven from our State that the dark tide of blood and crime shall not again roll over our fair and beautiful State, the work of Indian cruelty and Indian barbarity.

RESOLVED, That truth demands that we proclaim that the Sioux war is not ended, that no official or philanthropic sugar-coating of the most atrocious Indian massacre ever perpetrated shall quiet our appeals for protection; and we declare upon our honors as men, by the memory of our murdered friends and relatives, by the love we bear to our families and home fireside, that now, henceforth and forever our motto shall be removal or extermination of every Indian from our State, peacefully if we can, with powder and ball if we must.

RESOLVED, That since and indifference upon this question, is but a badge of treason to our interests, welfare and safety, and we proclaim as our private and public sentiments, that Minnesota must be a civilized State and not an Indian hunting ground; that after a reasonable time and a fair warning every Indian who treads our soil shall die, the penalty for the death of our murdered citizens.

RESOLVED, That we call upon the Governor of our State to use his power and influence to have all troops now in the State retained here until absolute peace and safety are restored, and the last inhuman savage driven beyond the bounds of our State.

RESOLVED, That the Secretary of this meeting transmit to the Governor of this State and the President of the U. S. copies of these proceedings; and that they be published in the Mankato Record and Independent, St. Paul papers, and such papers in the State as are friendly to this cause.

Public Meeting at Garden City.

At a large meeting of the citizens and soldiers stationed at Garden City, the following preamble and resolutions were unanimously adopted, and voted that they be published in the Mankato Record and St. Paul Press:

WHEREAS, The Sioux Indians, lately located upon our border, have risen and engaged in the most horrid and inhuman massacre ever known to this or any other people, torturing and putting to death our late friends, and fellow citizens in the most fiendish manner that savage barbarity could devise, destroying and carrying off as plunder the hard earned comforts acquired by untiring industry of the pioneers of our beautiful State:

Therefore Resolved, That we, the citizens of Blue Earth county, have heard with surprise and alarm that measures are on foot by officers high in Government authority to bring about a resumption of treaty stipulations, and let this tribe of blood-dyed devils go unpunished of their crimes, while the blood of our citizens yet cries from the ground.

Resolved, That it is the imperative duty of our members in Congress to use their utmost exertions to procure the removal of all Indians beyond the

Resolved, That the interests of this and adjoining counties demand the speedy removal of the Winnebago Indians from their present reservation in this county.

Resolved, Unanimously, that the Winnebago Indians must be removed.

Resolved, No more reservations, henceforth and forever.

Result of Election

BLUE EARTH COUNTY—OFFICIAL.

Table with columns: Congress (D. R., Winnow, Crawford), Dem. (Porter, Wenzel), Reps. (Russell, Kenworthy), and County (Mankato, South Bend, Judson, Butternut V., Corcora, Garden City, Vernon, Shelbyville, Sierling, Mapleton, Danville, Le Ray, J. mason, Lime). Rows show vote counts for each candidate and total counts.

Winnow's majority in the county is just 27. Ten scattering votes were cast for representatives.

Porter's majority over Freeman is 84; over Russell, 67; and over Kenworthy, 63. Wiswell has 15 majority over Freeman; but Russell leads him 2 votes and Kenworthy 6.—Butters receives 5 votes less than Freeman; 22 less than Russell; and 26 less than Kenworthy. In the district the Democratic majority is about 200 on the legislative ticket.

On the county ticket, for county auditor, Chapman received 783 votes, scattering 26. County Attorney, Pitcher 752, scattering 22. Court Commissioner, Paddock 763, scattering 28. Coroner, Cole 452.

Michael Hunt, dem., is elected commissioner in the first district without opposition, receiving 70 votes.

State Elections.

In New York, Seymour is certainly elected by over 10,000, and the probabilities are that the Democrats will have a majority on joint ballot in the Legislature. The same party has elected 20 Congressmen to 11 Republicans.

Massachusetts has given a Republican majority of 20,000. The congressional delegation stands 9 Republicans to 1 Democrat.

Illinois has given a Democratic majority of 15,000, and elected 9 Democrats and 5 Republicans to Congress. The Legislature is largely Democratic, insuring the election of a Democratic U. S. Senator.

New Jersey is overwhelmingly Democratic. The congressional delegation will stand 3 Democrats to 1 Republican; and the Legislature, which elects a U. S. Senator, is strongly Democratic.

Wisconsin elects 3 Democrats and 3 Republicans to Congress. On the congressional vote, the State is Democratic by about 6,000.

McClellan superseded.

An official order has been issued by the President removing Gen. McClellan from the command of the army of the Potomac, and appointing Gen. Burnside to succeed him. Gen. Wool is superseded by Gen. Schenck, and Gen. Porter by Gen. Hooker. These changes are in accordance with the demands of the radical element of the Republican party, who have at last succeeded in their efforts to humiliate Gen. McClellan. We deplore the chance, but if it will expediate the suppression of the rebellion, or give new energy and confidence to the Union army, we shall say "amen."

OYSTERS.—Those of our readers wishing to enjoy the luxury of a dish of fresh oysters, served up in the best style, with all the necessary accessories, must call on our friend Pierce, nearly opposite the Mankato House. Our word for it, he cannot be excelled in that line.

ROMANTIC.—An Irish maiden of Dubuque, while engaged in the useful and healthy exercise of washing, recently, fell into a cistern. A bachelor fellow

their conduct in thus attacking prisoners, strongly ironed and guarded, and all under sentence to atone with their lives for their misdeeds.

the temper of our people and see whether such an outrage can be perpetrated with impunity. If they think it will be tamely submitted to, they much mistake the temper of the people; and an attempt to carry it into effect will so infuriate the citizens of Minnesota, that they will arise as one man and drive every Indian, agent and trader from our borders. The people have been trifled with too long already, and we beseech the officials at Washington, if they would save our State from the disgrace of an open revolt and resistance to the military authorities, that they allow the law to take its course, and full justice be meted out to the savage murderers of our neighbors and friends.

THE RINGLEADERS TO BE HUNG.

A telegraphic despatch in the Winona Republican, of the 12th, says that the President has replied to Gen. Pope to hang only the ringleaders in the Sioux massacre, and requiring a copy of the evidence upon which they were convicted. We are at a loss to understand who the President refers to as "ringleaders" unless he means Little Crow and a few other chiefs, and if so, we would remind him that those personages must be caught before they can be hung.

From the above we infer that few, if any of the Indians now held by Gen. Sibley will be hung with the sanction of the Government. Few of them were "ringleaders" but all were actual participants in the murders. The massacre was premeditated and simultaneous by the whole Sioux tribe; and it must indeed be a nice discrimination that can distinguish the "ringleaders" from the followers. All are alike murderers, and no punishment short of hanging will satisfy the citizens of Minnesota. If the Government will not execute them, the people must; and woe to the men or set of men who interpose between the people and the savage murderers.

Judge USHER.—This distinguished functionary paid a visit to the Winnebago Agency last week. He remained several days, during which time he held several councils with the Indians, and treated them to a grand beef feast, killing four or five cattle for the occasion. On Saturday he passed through our town, stopping long enough to get his dinner. While here he was closely guarded, and no opportunity was afforded our citizens to converse with him or ever represent their views relative to the disposition to be made of the Indians. We agree with a speaker at the late public meeting at this place that "it is about time that public officers should associate and consult with white men, and not Winnebago Indians, when they are commissioned to look after the public welfare."

25 On Tuesday evening last a very pleasant social party came off at the Mankato House, and another at Masonic Hall, on Thursday evening. Gen. Sibley, Col. Crooks, Lieut. Col. Averill, and other distinguished personages, attended the former and participated in the dance.

Another general order has been issued by direction of Gov. Ramsey, extending the time for drafting in the few counties which are delinquent in furnishing their quotas, to the 20th inst.—It is stated that but four counties are now behind, viz: Winona, Fillmore, Houston and Sibley. The deficit to be made up in these counties is 160, which if not sooner supplied by voluntary enlistment, will be drafted on the 20th inst., from the counties named, provided Gov. Ramsey does not again determine to "go loose." There will be no draft to fill the old regiments, and the men now required to complete our quota will probably be assigned to the regiment of Mounted Rangers now being organized.

Advice from Port Royal state that preparators are making for a combined attack on Charleston and Savannah.

to, held Monday evening Nov. 3d, 1862, the following resolutions were adopted:

WHEREAS, Our State has been ruthlessly invaded by a horde of Indian savages, located upon our borders, who have with more than fiendish cruelty, brutally murdered hundreds of our citizens, torturing and maiming them ere death ended their sufferings, and driven thousands of others from their homes and property:

AND WHEREAS, The savage foe has only been stayed, (and not conquered,) in their internal cruelties, and are yet roaming upon our frontier, in large numbers, blood-thirsty, barbarous, and unsubdued, writing only the favorable opportunity when death and devastation will again be hurled upon us;

AND WHEREAS, The Winnebago Indians are located within our county, whom we have good reason to believe would have joined in the general Indian massacre had it not been for the vigilance and bravery of our frontier citizens generally, and the soldiers sent for our protection, who drove back the infernal savages west of us;

AND WHEREAS, We are informed that two regiments of Minnesota troops and several other regiments, sent here for our protection, have been ordered to leave the State.

THEREFORE RESOLVED, That we earnestly demand the continuance of the troops now here until peace and safety are restored to our frontier, and every Indian driven from our State that the dark tide of blood and crime shall not again roll over our fair and beautiful State, the work of Indian cruelty and Indian barbarity.

RESOLVED, That truth demands that we proclaim that the Sioux war is not ended, that no official or philanthropic sugar-coating of the most atrocious Indian massacre ever perpetrated shall quiet our appeals for protection; and we declare upon our honors as men, by the memory of our murdered friends and relatives, by the love we bear to our families and home fireside, that now, henceforth and forever our motto shall be removal or extermination of every Indian from our State, peacefully if we can, with power and ball if we must.

RESOLVED, That science and indifference upon this question, is but a badge of treason to our interests, welfare and safety, and we proclaim as our private and public sentiments, that Minnesota must be a civilized State and not an Indian hunting ground; that after a reasonable time and a fair warning every Indian who treads our soil shall die, the penalty for the death of our murdered citizens.

RESOLVED, That we call upon the Governor of our State to use his power and influence to have all troops now in the State retained here until absolute peace and safety are restored, and the last inhuman savage driven beyond the bounds of our State.

RESOLVED, That the Secretary of this meeting transmit to the Governor of this State and the President of the U. S. copies of these proceedings; and that they be published in the Mankato Record and Independent, St. Paul papers, and such papers in the State as are friendly to this cause.

Public Meeting at Garden City.

At a large meeting of the citizens and soldiers stationed at Garden City, the following preamble and resolutions were unanimously adopted, and voted that they be published in the Mankato Record and St. Paul Press—

WHEREAS, The Sioux Indians, lately located upon our border, have risen and engaged in the most horrid and inhuman massacre ever known to this or any other people, torturing and putting to death our late friends and fellow citizens in the most fiendish manner that savage barbarity could devise, destroying and carrying off as plunder the hard earned comforts acquired by our industry of the pioneers of our beautiful State;

THEREFORE RESOLVED, That we, the citizens of Blue Earth county, have heard with surprise and alarm that measures are on foot by officers high in Government authority to bring about a resumption of treaty stipulations, and let this tribe of blood-dyed devils go unpunished of their crimes, while the blood of our citizens yet cries from the ground.

RESOLVED, That it is the imperative duty of our members in Congress to see their utmost exertions to procure the removal of all Indians beyond the borders of this State, and that we the citizens will pledge ourselves to each other, under all circumstances, to use our utmost exertions to bring about this desired object.

Resolved, Unanimously, to remove the negro Indians immediately to be removed. Resolved, No more reservations, henceforth and forever.

Winnow's majority in the county is just 27.
Ten scattering votes were cast for representatives.

Porter's majority over Freeman is 84; over Russell, 67; and over Kenworthy, 63. Russell leads him 2 votes and Kenworthy 6.—Butters receives 5 votes less than Freeman; 22 less than Russell; and 26 less than Kenworthy. In the district the Democratic majority is about 200 on the legislative ticket.
On the county ticket, for county auditor, Chapman received 783 votes, scattering 22. Court Commissioner, Padlock 763, scattering 28. Coroner, Cole 452.

Michael Hunt, dem., is elected commissioner in the first district without opposition, receiving 707 votes.

State Elections.

In New York, Seymour is certainly elected by over 10,000, and the probabilities are that the Democrats will have a majority on joint ballot in the Legislature. The same party has elected 20 Congressmen to 11 Republicans.
Massachusetts has given a Republican majority of 20,000. The congressional delegation stands 9 Republicans to 1 Democrat.

Illinois has given a Democratic majority of 15,000, and elected 9 Democrats and 5 Republicans to Congress. The Legislature is largely Democratic, insuring the election of a Democratic U. S. Senator.

New Jersey is overwhelmingly Democratic. The Congressional delegation will stand 3 Democrats to 1 Republican; and the Legislature, which elects a U. S. Senator, is strongly Democratic.

Wisconsin elects 3 Democrats and 3 Republicans to Congress. On the congressional vote, the State is Democratic by about 6,000.

McClellan superseded.

An official order has been issued by the President removing Gen. McClellan from the command of the army of the Potomac, and appointing Gen. Burnside to succeed him. Gen. Wool is superseded by Gen. Schenck, and Gen. Porter by Gen. Hooker. These changes are in accordance with the demands of the radical element of the Republican party, who have at last succeeded in their efforts to humiliate Gen. McClellan. We deplore the change, but if it will expediate the suppression of the rebellion, or give new energy and confidence to the Union army, we shall say "amen."

OYSTERS.—Those of our readers wishing to enjoy the luxury of a dish of fresh oysters, served up in the best style, with all the necessary accretions, must call on our friend Pierce, nearly opposite the Mankato House. Our word for it, he cannot be excelled in that line.

ROMANTIC.—An Irish maiden of Dubuque, while engaged in the useful and healthy exercise of washing, recently fell into a cistern. A bachelor fellow being near plunged in and rescued her. They are to be married.

It is understood that General Scott will reply to Mr. Buchanan, in the columns of the Intelligencer.

Busy Time.—Since the arrival of Gen. Sibley's command, our town has been crowded with soldiers and visitors, and business of all kinds has been unusually brisk. Hundreds of teams are daily employed in hauling forage, provisions, wood, etc., to camp, and at times our streets are a perfect jam with people and wagons. The price of butter, eggs, poultry, etc., has been much enhanced, and in this line farmers are reaping a golden harvest.

—Hon. Thomas A. Hendricks will undoubtedly be the Democratic candidate for the U. S. Senate from Indiana, for six years succeeding the 4th of March next.

Bakery.—Mr. Pierce has opened a bakery and confectionery on Front street and he is engaged night and day in supplying the wants of the soldiers. On Thursday morning, in an hour he sold over one hundred pies.

Wood.—We are very much in need of cord wood, and as a large amount is due us for subscription, we hope those who have promised to pay their subscriptions in that article, will do so at once.

Black-Horse Cavalry.—The above company, recruited in this and Nicollet counties, has been organized as follows: Captain, E. St. Julien Cox; 1st Lieutenant, Patrick Gardner; 2d Lieutenant, Peter A. Lantz.

Religious Service.—On Sunday morning, Rev. Mr. Golden, chaplain of the 25th Wisconsin, will preach in Masonic Hall.

Nashville is safe—rebels are fleeing Southward. Rowan was arrived there Monday night, having left Bowling Green the same morning! That looks like business. Stirring, active generals are now in command, East and West.

We have account of a most brilliant cavalry skirmish which occurred on Sunday morning last, at Fredericksburg.

Capt. Dahlgreen with 60 of his men fell upon eight companies of rebel cavalry, without giving them notice to form, and fought them in a hand-to-hand encounter for three hours, when the rebels were completely routed. Capt. D. only lost one killed and three wounded; took thirty-nine prisoners, horses, accoutrements, and two wagons loaded with army clothing.

In consequence of a large amount of job work, we are compelled to neglect our paper this issue, which our readers will please excuse.

We are printing neat forms for claims against the State and General Government arising out of the Sioux depredations, which will be furnished cheap for cash.

A single cargo of cotton running the blockade from Charleston to England will itself purchase a very respectable iron-hulled steamer quite fit for rebel service.

Under the law passed at the extra session providing for sending insane persons to the Iowa State Hospital, nine applications have been made to the Secretary of State.

We understand that some or all of those will be sent down the river before the close of navigation, to the asylum kindly opened to our patients by the authorities of Iowa.

Burn-side has been cordially received by the army of the Potomac, and Governor Sprague fired 100 guns in honor of his appointment.

General McClellan is ordered to report at Trenton, New Jersey.

Jas. H. Bumley, merchant, 184 Fulton st.,
New York, writes, August 18, 1860: "I have
been afflicted with piles, accompanied with
bleeding, the last three years; I used
Darling's Liver Regulator and Life Bitters,
and now consider myself entirely cured."

Hon. John A. Cross writes: "Brooklyn,
March 13, 1860. In the spring of 1859 I took
a severe cold, which induced a violent fever.
I took two doses of
DARLING'S LIVER REGULATOR.
It broke up my cold and fever at once. Pre-
viously to this attack, I had been troubled with
dyspepsia several months. I have felt nothing
of it since."

Geo. Studley, Esq., 128 East 128th street,
New York, writes, August 13, 1860: "I had
a difficulty with kidney complaint three years
with constant pain in the small of my back. I
had used most all kinds of medicines, but
found no permanent relief until I used
Darling's Liver Regulator and Life Bitters.
I passed clotted blood by the urethra. I am
now entirely cured, and take pleasure in re-
commending these remedies."

Mrs. C. Tehow, 11 Christopher street, N. Y.,
writes: "Feb. 20, 1860—I have been subject
to attacks of the Asthma the last twenty
years. I have never found anything equal to
DARLING'S LIVER REGULATOR
in affording immediate relief. It is a thorough
liver and bilious remedy."

Mrs. Young, of Brooklyn, writes, "Februa-
ry 28, 1860. In May last I had a severe at-
tack of Piles, which confined me to the house.
I took one bottle of
DARLING'S LIFE BITTERS,
and was entirely cured. I have had no at-
tack since."

D. Westervelt, Esq., of South 5th, near 8th
street, Williamsburg, L. I., writes: "August
3, 1860.—Having been troubled with a diffi-
culty in the Liver, and subject to bilious at-
tacks, I was advised by a friend to try
DARLING'S LIVER REGULATOR.
I did so, and found it to operate admirably,
removing the bile and arousing the liver to ac-
tivity. I had also used it as a family medi-
cine. When our children are out of sorts, we
give them a few drops and it sets them all
right. I find it meets the general wants of
the stomach and bowels when disordered."

Reader, if you need either or both of these
most excellent Remedies, inquire for them at
the stores; if you do not find them, take no
other, but enclose one dollar in a letter, and
on receipt of the money, the remedy or reme-
dies will be sent according to your direc-
